

What You Need to Know About Overdrafts, Overdraft Fees and Courtesy Pay

An overdraft occurs when you do not have enough money in your account to cover a transaction, but we pay it anyway. We cover your overdrafts in two different ways:

1. We have standard overdraft practices, which we call courtesy pay, that come from your account.
2. We also offer overdraft protection plans, which we call overdraft transfers, which may be less expensive than our standard overdraft practices. For instance, you could link your savings account to your checking account and set up overdraft transfers, and there would not be a fee for the overdraft transfer service. To learn more, ask us about overdraft transfers.

This notice explains our standard overdraft practices.

> What are the standard overdraft practices that come with my account?

We do authorize and pay overdrafts for the following types of transactions:

- Checks and other transactions (excluding ATM withdrawals) made using your checking account number
- Automatic bill payments

We do not authorize and pay overdrafts for the following types of transactions unless you ask us to (see below):

- Everyday debit card transactions

We pay overdrafts using courtesy pay at our discretion, which means we do not guarantee that we will always authorize and pay any type of overdraft transaction.

If we do not authorize and pay an overdraft, your transaction will be declined.

> What fees will I be charged if SLFCU pays my overdraft?

Under our standard overdraft practices:

- We will charge you a fee of \$ **25** each time we pay an overdraft using courtesy pay
- We will only charge a limit of six (6) fees per day for items overdrawing your account.
