

SIGNATURE VALIDATION PROGRAM™

The Signature Validation Program (SVP) was created by Kemark Financial, Inc. to fill the gap between Notary services and Signature Medallion Guarantees.

The sole purpose of a Medallion Guarantee is to provide special warranties for an endorsement connected to the sale, assignment, transfer, or redemption of security. Signature Validations are specifically designed to address non-security events. Non-security events are defined as any commercial transaction that does not pertain to a sale, assignment, transfer, or redemption of a security. Signature Validations will not be performed on documents that require a Signature Medallion Guarantee as those requests are strictly governed by the Uniform Commercial Code (UCC). Because the purpose of each program is different, SLFCU cannot perform Signature Medallion requests in place of Signature Validations or vice versa. The two programs are not interchangeable.
